MIKE SCHRECK TOOK ON FIVE MEN.

Started With Big Jim Williams And Waded Through the Whole Bunch,

DID TEN MILES ON THE ROAD.

Then Punched the Bag and Skipped The Rope After Which He Demanded More Work.

A run of 10 miles on the road, 10 minutes swinging Indian clubs in the gym, a shower bath, and a rubdown in the morning. In the afternoon-three fast rounds with five local boxers; four rounds with the punching bag, five minutes skipping the rope and 10 minutes with the clubs. The above is the work performed by Mike Schreck at the Social Hall gymnasium yesterday, and it is repeated today. His work was watched by an enthusias-tic crowd of fight fans. Schreck set the pace and kept it up until he had tired out those who worked with him. Then, like Oliver Twist, he "hollered" for more. He does not seem to tire, and eevry movement does not seem to the, and every movement of his well muscled body reminus one of Battling Nelson, the Durable Dane.

Yesterday afternoon Officer Jim Williams, popular among the fight lans of Utah, consented to don the padded mitts with Schreck. They went at it hammed and tongs, never resting for a second. Jim made Schreck go some, but the latter is certainly capable of going, At the close of the bout he had Jim willing for a rest. Jim, of course, has been doing no boxing of late, and is not in shape for much fast work, especially with a rugged man like Schreck. After getting through with the officer. Schreck called for more. Four hoxers responded and Schreck took them on one after another and each man was glad to hear the call of time.

Then the spectators were amazed to see the German work on the bag and do a dozen other stunts, never thing in the least. He said he was ready to go into the ring at any time.

Werd comes from Ogden today that Gardner is in great shape. He also has of his well muscled body remines one of

Word comes from Ogden today that Gardner is in great shape. He also has been setting a fast pace and says he is now satisfied with his condition and is eager for the gong to sound next Monday pight. It is believed that fully 3.0 fight fans will come down from Ogden with Gadrer, and several requests have been made for tickets at the Salt Lake Theater. GOOD BOWLING RECORD.

 WALKERS. THE BOISE BALL TEAM.

Fruit Pickers Are Said to be a Pretty Fast Bunch. Roise Statesman says

The Boise Statesman says;
A considerable number of people braved the occasional blasts of March wind which, by some oversight of the official weather mixer in the federal building, had been allowed to stray into the prosent month, and sat in the grandstand at Riverside park yesterday afternoon and watched the Fruit Pickers at work with their infield practise.

The boys have not yet got down to Belmont park, once completed, would be the grandest race course in the world and the real Newmarket of America. On this basis, therefore, the work has been county has become the principal topic of the time among turfmen of all classes.

On May 4, when the ponderous gates are swung back for the thousands of racegoers to enter, the rich Metropoli-

hard work, taking things easy so as not to overdo. They jetsurely batted out files from easy balls tossed them from the pitcher's box, and comments from the grandstand were freely mixed with "dope" regarding some player in s.me other league which some of the auditors had seen play somewhere back in tan '90s when he had attended a game between Squedunk and Pikeville that had been thrilling up to the very last inning when—

when—
But just at this point Irby, one of the new Boise players, would approach the batter's box and the attention of all would be riveted on the easy manner in which he swung his bat. Then Bert Schils, another new player, who came to Boise to play "outlaw" ball in preference to staying with Des Moines, would come up and lane out a pretty fly to keep center, and George Hanson, the oid-time catcher, would "place" a pretty one just over where the third baseman's head would naturally be, and the crowd would go into eestasies.

Chris Stellz threw the balls down to the batters for a time, and if he hearing the complimentary remarks that were passed on his delivery and general work in the box, his ears are likely ting-line yet.

were passed on his delivery and general work in the box, his ears are likely tingling yet.

The infield was in fairly good condition after the thorough rolling it received Saturday but the outfield hid not been leveled after its "harrowing" experiences of the past week.

Manager Cody is going after two or three different players, each of them with a good reputation in the past, to fill the vacancy at shortstop. One of these, whom he thinks he may be able to secure, is Tom Delchanty, who played third base for Seattle last season. He played third for the Coast league team, securing a percentage of S8. It is propable he would be put at second base and Bert Schlis transferred to short, if he were secured.

Where Delchanty really shines is with the stick. He batted 236 last year against the big Coast league inchers and with the close scoring that prevalled along the coast. Kellackey, for instance, was able to secure a credit of only 216 there when he went to Portland at the close of the season here, although he had batted 30 in the Pacific National. Rockenfeld, the doughty little second baseman form Spokane, ran his percentage to 380 in the second 117 runs out of 229 have his in Spottmes at bat, stealing 26 bases, and batting two home runs and nine three-buggers, besides 36 two-baggers and 16 sacrifice hits.

THE JOB OF UMPIRE.

cam and Hank O'Day engaged in a livediscussion the other day over the 'softness" of certain jobs in baseball Hart argued that the umpire's life was far from being the martyrdom that it is

far from being the martyrdom that it is painted,
"Under the rules as they are today the umpire has nearly as easy a time as the president of the league, he said,
"Whatever the umpire says g es. There is no appeal. Of course, the piayers klek and the crowd does a good deat of hoting at times, but the players can be purout of the game by the unpire when they get too noisy, and as for the crowd, they kick on the umpire on general principles and this ought to make no difference.

ence,
"The umpire cares not which team loses. He does not have to be on pins and needles day after day about the outcome of the games. He does not need to report at the grounds until 3 o'clock and the ordinary game is over at 5:30. In the meantime he has had just enough exercise and excitement in the open air to make him enjoy his dinner and a good sleep."

make him enjoy his dinner and a good sleep."

The statement brought forth a strong protest from the veteran "arbitrator."

"Umpiring ball garges is not exercise." he retorted. "It is labor. As we get out of it is salary and a lot of abuse. Certainly we never get any thanks from anybody. The umpire has plenty to worry about. A long, close-fought game often hinges on one decision, and it the umpire makes a mistake in a case like that he never hears the last of it.

"Then, there is the foul tip menace. Last summer at Pittsburg the ball broke my mask and hit me squarely in the eye, putting it completely out and splitting my cheek until six stitches were necessary. Another time I had my big toe driven clear back into my instep, and it isn't right yet. How would you like to stop the foul tips, Mr. Hart?" A GREAT RACE TRACK.

What August Belmont Proposes to Make Before Long.

A New York dispatch says:

A New York dispatch says:

It will require the most diligent sort of labor to get Belmont park, the new \$2,000,000 race track on Long Island, ready for the opening of the spring meeting there on May 4. The work was started two years ago, but the severity of the winter has retarded things so much that the biggest kind of hustling will be necessary to complete the magnificent plant in all its extensive details. Still, if the weather is favorable for the next two months, the work will be finished in its entirety, so the contractors say.

the work will be finished in its entirety, so the contractors say.

Morris park will remain closed in order to permit Belmont park to open, but the racing public will find the new track a vast improvement on the picturesque course in Westchester. When the Westchester Racing association, or, rather, August Belmont and others who are associated with him in turf affairs, decided to build the new race track, they concluded to spare no expense. The plans for the track were drawn on the most elaborate scale, the idea being that Belmont park, once completed, would be the grandest race course in the world and the real Newmarket of America. On this basis, therefore, the work has been county has become the principal topic of the time among turfmen of all classes.

A DOLLAR'S WORTH FREE TO ANY RHEUMATIC SUFFERER.

I ask no deposit—no reference—no security. There is nothing to risk—nothing to promise—nothing to pay, either now or later. Any Rheumatic sufferer who does not know my remedy may have a full dollar's worth free to try.

I willingly make this liberal offer because I know that Dr. Shoop's Rheumatic Remedy may be relied upon ALWAYS to bring the utmost relief that medicine can. Years before I discovered this remedy, I studied the nature of Rheumatism. For Rheumatism is really

Crystalized Poison!

Your blood is always full of poison—the poison you eat and drink and breathe linto your system. It is the purpose of the blood to absorb and carry off this very poison. And the kidneys, which are the blood filters, are expected to cleanse the blood filters, are expected to cleanse the blood and send it back through the system clean, to gather more poison which, they, in turn, will eliminate.

But sometimes the kidneys fail. And sometimes, from some other cause, the blood gets so full of poison that they cannot absorb it all. This is the start of Rheumatism. The poison accumulates and crystalizes. The crystalis took like little grains of sugar or of fine white sand. The blood carries them and they increase in size, Then, when it can carry them no longer, it deposits them in a joint—on a bone—anywhere.

The twinge in your leg—the dull ache in your arm on a rainy day—these are the outward signs of the unseen crystals. And the twisted limbs and unspeakable anguish of the sufferer who has allowed his symptoms to go unbeeded and unattended for years—these are the evidences of what Rheumatism, neglected, can do.

Rheumatism includes lumbago, sciatica, heuraligh, gout—for all these are the return the re-

Rheumatism includes lumbago, sciatica neuralgia, gout—for all these are the results of rheumatic poison in the blood.

I spent twenty years in experimenting before I felt satisfied that I had a certain remedy for this dread disease—a remedy which would not only clean out the poison, but one which would stop its formation.

Certain Relief.

The secret lay in a wonderful chemical I found in Germany. When I found this chemical, I knew that I could make a Rheumatic cure that would be practically certain. But even then, before I made an announgement—before I was willing to put my name on it—I made more than 2,000 tests! And my failures were but 2 per cent.

This German chemical is not the only ingredient I use in Dr. Shoop's Rheumatic Cure—but it made the remedy possible—made possible an achievement which I doubt not, could have been made in no ther way.

This chemical was very expensive. The duty, too, was high. In all it cost me \$4.90 per pound. But what is \$4.90 per pound for a REAL remedy for the world's most painful disease—for a REAL relief from the greatest torture human beings know?

I don't mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again—that is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of the pain and swelling—the end of the suffering—the end of Rheumatism. That is why I can afford to make this liberal offer—that is why I can afford to spend the FIRST dollar that Rheumatic sufferers, the world over, may learn of my remedy.

Simply Write Me

Plainly, the first thing to do is to remove the poison. But this is not enough. The FORMATION of the poison must be stopped, so that nature may have a hance to dissolve and eliminate the crystals which have already formed. Unless his is done there can be no cure—no pernament relief.

I searched the whole earth for a specific or Rheumatism—something that I or any physician could feel sufe in prescribing—something that we could count on not may occasionally, but ALWAYS. For the avages of Rheumatism are everywhere and genuine relief is rare.

tan handicap, the Juvenile stakes and the Whitney Memorial steeplechase will be the chief attractions. The crowd, as it pours into Belmont park on that day, will see the best equipped racing plant in this country, if not in the world. The track and its gigantic structures are located about an eighth of a mile from the gateways, and to reach them one must pass through a picturesque grove which leads first to the old Mannice mansion, now the permanent home of the Turf and Field club, thence to the immense grandstand. This structure is 8% feet long and will seat 11,0% spectators. It is built of steel, with brick foundations, and has practically two decks under one roof. A short flight of steps in the front of the grandstand leads up to the first tier of seats, which is ten deen. Eight or ten feet above the gallery back of these seats the second tier begins, with a wide promenade behind the latter. There are half a dozen wide gallerles on the roof, which afford a supperbylew of the entire course.

Drunkards Cured Free in One Day STONE IN THE BLADDER

Quickly Dissolved and Removed Without Danger by Warner's Safe Cure.

Stone in the bladder is one form of kidney trouble—a sign that the kidneys are so diseased that they are no longer able to remove all the uric acid and other poisonous waste matters out of the blood.

The uric acid accumulates in the bladder and forms into little lumps or stones, which pass away from time to time in the urine. If they are at all large they seriously injure the delicate tissues of the urinary organs, causing linlammation, great weakness, and not infrequently convulsions and death.

When the gravel becomes so large that it cannot be passed the uric acid backs up through the blood, poisons the whole system, and the sufferer dies in terrible agony.

I was out of health and run down generally; had no app tite, was dizzy and suffered with headache most of the time. I did not know that my kidneys were the cause of my trouble, but somehow felt that they might be and I began taking Swamp-Root. There is such a pleasant taste to Swamp-Root. and it goes right to the spot and drives dissease out of the system. It has cured me, making me stronger and better in every way, and I cheerfully recommend is to all sufferers.

Gratefully yours,

Mrs. A. L. WALKER,

Weak and unhealthy kidneys are responsible

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering and fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sieepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; make your head ache and back ache,, cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as sallow, yellow complexion, make you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak

and waste away.

The cure for these troubles is Dr. Kilmer's The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous kidney remedy, In taking Swamp-Root you at ord natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.
